

## COMUNICATO STAMPA

### UniCredit: Risultato finale EBA Test

UniCredit prende atto dell'annuncio oggi effettuato dall'Autorità Bancaria Europea (EBA) e dalla Banca d'Italia riguardo al risultato finale dell'esercizio sul capitale e all'adempimento della Raccomandazione emanata dall'EBA nel Dicembre 2011. Per UniCredit, esso evidenzia il seguente risultato:

Il coefficiente patrimoniale di **UniCredit in termini di Core Tier 1 supera il 9%**, tenuto conto del sovereign buffer così come definito nella Raccomandazione EBA del dicembre 2011.

“Questi risultati pongono Unicredit al di sopra dei livelli richiesti - ha commentato **l'amministratore delegato Federico Ghizzoni**. La nostra banca ha saputo portare a termine con successo misure di rafforzamento patrimoniale con operazioni di mercato - dall'aumento di capitale al riacquisto di bond subordinati - e azioni di ottimizzazione dei rischi. Tutto ciò consente oggi a Unicredit di essere una grande banca commerciale europea con una eccellente solidità patrimoniale.”

#### **Informativa sull'esercizio sul capitale dell'EBA**

La Raccomandazione relativa alla costituzione di buffer temporanei di capitale per ristabilire fiducia sui mercati è stata emanata dal Consiglio dei Supervisor dell'EBA l'8 dicembre 2011 al fine di affrontare la difficile situazione del sistema bancario dell'Unione Europea e ripristinare condizioni di stabilità sui mercati. La Raccomandazione faceva parte di una serie di misure concordate nell'ambito dell'Unione Europea.

La Raccomandazione invitava le autorità di Vigilanza nazionali a richiedere alle banche incluse nel campione di rafforzare il proprio capitale, costituendo un buffer temporaneo ed eccezionale tale da portare il coefficiente patrimoniale in termini di Core Tier 1 ad un livello almeno pari al 9% entro la fine di giugno 2012. Inoltre, alle banche era richiesto un buffer eccezionale e temporaneo a copertura dell'esposizione nei confronti del debito sovrano, tale da riflettere la valutazione ai prezzi di mercato della fine di settembre 2011. L'ammontare del buffer di capitale a copertura del debito sovrano non è stato modificato.

Il campione iniziale delle banche partecipanti all'esercizio sul capitale comprendeva 71 intermediari; le sei banche greche sono state trattate secondo modalità distinte, tenuto conto della partecipazione della Grecia ad un programma di assistenza congiunto dell'Unione Europea e del Fondo Monetario Internazionale. Altre quattro banche appartenenti al campione originario (Oesterreichische Volksbank AG, Dexia, WestLB AG e Bankia) sono monitorate separatamente, in quanto coinvolte in significativi processi di ristrutturazione. I risultati finali oggi pubblicati riguardano quindi 61 banche.

Per ulteriori dettagli sulle misure definite per ristabilire la fiducia nel settore bancario, si rimanda al sito dell'EBA ([www.eba.europa.eu](http://www.eba.europa.eu)).

Notes and definitions

(1) The amount is already included in the computation of the eligible capital and reserves and it is provided separately for information purposes.

(2) According with CRD3 it can include also 50% securitisation exposures in the trading book subject to 1250% risk weight and not included in RWA.

(3) It includes also possible differences between the book value and the fair value of: (i) direct sovereign exposures in derivatives; (ii) indirect sovereign exposures in the banking and trading book

## Composition of RWA

Notes and definitions

- (1) The exposures reported cover only exposures to central, regional and local governments on immediate borrower basis, and do not include exposures to other counterparties with full or partial government guarantees
- (2) The banks disclose the exposures in the "Financial assets held for trading" portfolio after offsetting the cash short positions having the same maturities.
- (3) The exposures reported include the positions towards counterparties (other than sovereign) on sovereign credit risk (i.e. CDS, financial guarantees) booked in all the accounting portfolio (on-off balance sheet). Irrespective of the denomination and or accounting classification of the positions **the economic substance over the form** must be used as a criteria for the identification of the exposures to be included in this column. This item **does not include** exposures to counterparties (other than sovereign) with full or partial government guarantees by central, regional and local governments
- (4) According with CEBS Guidelines on prudential filters it is required a consistent treatment of gains and losses resulting from a transaction whereby a cash flow hedge is created for an available for sale instrument: i.e. if the gains on the hedged item are recognised in additional own funds, so should the results of the corresponding cash flow hedging derivative. Moreover if fair-value hedging contracts on sovereign assets are taken in consideration for the computation of the prudential filters (before their removal), the FV of such contracts must be reported in the column AB.
- (5) Please report gross and net direct positions before eventual write-off (PSI); in the column provisions must be included eventual write-off (PSI).

Exposures to sovereigns (central, regional and local governments) in EEA, as of 30 June 2012

Notes and definitions

- (1) The exposures reported cover only exposures to central, regional and local governments on immediate borrower basis, and do not include exposures to other counterparties with full or partial government guarantees
- (2) The banks disclose the exposures in the "Financial assets held for trading" portfolio after offsetting the cash short positions having the same maturities.
- (3) The exposures reported include the positions towards counterparties (other than sovereign) on sovereign credit risk (i.e. CDS, financial guarantees) booked in all the accounting portfolio (on-off balance sheet). Irrespective of the denomination and or accounting classification of the positions **the economic substance over the form** must be used as a criteria for the identification of the exposures to be included in this column. This item **does not include** exposures to counterparties (other than sovereign) with full or partial government guarantees by central, regional and local governments
- (4) According with CEBS Guidelines on prudential filters it is required a consistent treatment of gains and losses resulting from a transaction whereby a cash flow hedge is created for an available for sale instrument: i.e. if the gains on the hedged item are recognised in additional own funds, so should the results of the corresponding cash flow hedging derivative. Moreover if fair-value hedging contracts on sovereign assets are taken in consideration for the computation of the prudential filters (before their removal), the FV of such contracts must be reported in the column AB.
- (5) Please report gross and net direct positions before eventual write-off (PSI); in the column provisions must be included eventual write-off (PSI).
